

Improvements of the course overview block

Group 34

Team members & roles

- Alex Bias
Moodle-/ Behat test-Developer
- Thorsten Gattinger
Moodle-/ Behat test-Developer
- Dennis (Wolfgang Baier)
CSS-Developer & Designer
- Martin Reichel
Behat test-Developer & Support

Special team members:
all Moodle HQ developers ;-)

Intention | Pitched idea

As an user

I would like to be able to use the **course overview** block in a more flexible way by **improvement on the functionality** to find my needed courses much **easier and faster**.

Origin behaviour

- You only can sort by „Course name“, „Short name“, „Last accessed“.
- It is not possible to set the available sorting options.
- It is not possible to use a combined filter of text and course filters.
- There are some bugs with the CSS of the block.
